# Abstract

One regulator says that a digital asset is a currency. Another says that it is secure. The outcome is confusion and is incredibly harmful to retail customers and end-users.

People are tired of seeing enforcement actions by government agencies in other countries affecting their token of choice's development potential. Cryptocurrency regulation needs clarity. People must act together in a peaceful international movement in support of sensible digital asset regulation globally.

## Introducing SuperEagle Coin

SuperEagle Coin stands for saving cryptocurrency. It is the first dedicated protest token on the XRP ledger. SuperEagle Coin aims to be the premier protest token on the XRP ledger tokenizing a movement for sensible digital asset regulation.

SuperEagle Coin is targeted primarily at XRP supporters who want to immutably show their discontent with the current digital asset enforcement proceedings against XRP and its developers.

# Mission and Vision

The mission and vision of SuperEagle Coin are to tokenize the movement to ask for clear regulations and clarity on what users can and cannot do with digital currencies. The goal is to clarify cryptocurrency regulations so that any coercion actions by government agencies do not affect the overall potential of this developing market.

After resolving this issue, SuperEagle Coin will focus on other financial market regulatory gaps whilst also developing non-fungible tokens (NFT) on the XRP ledger.

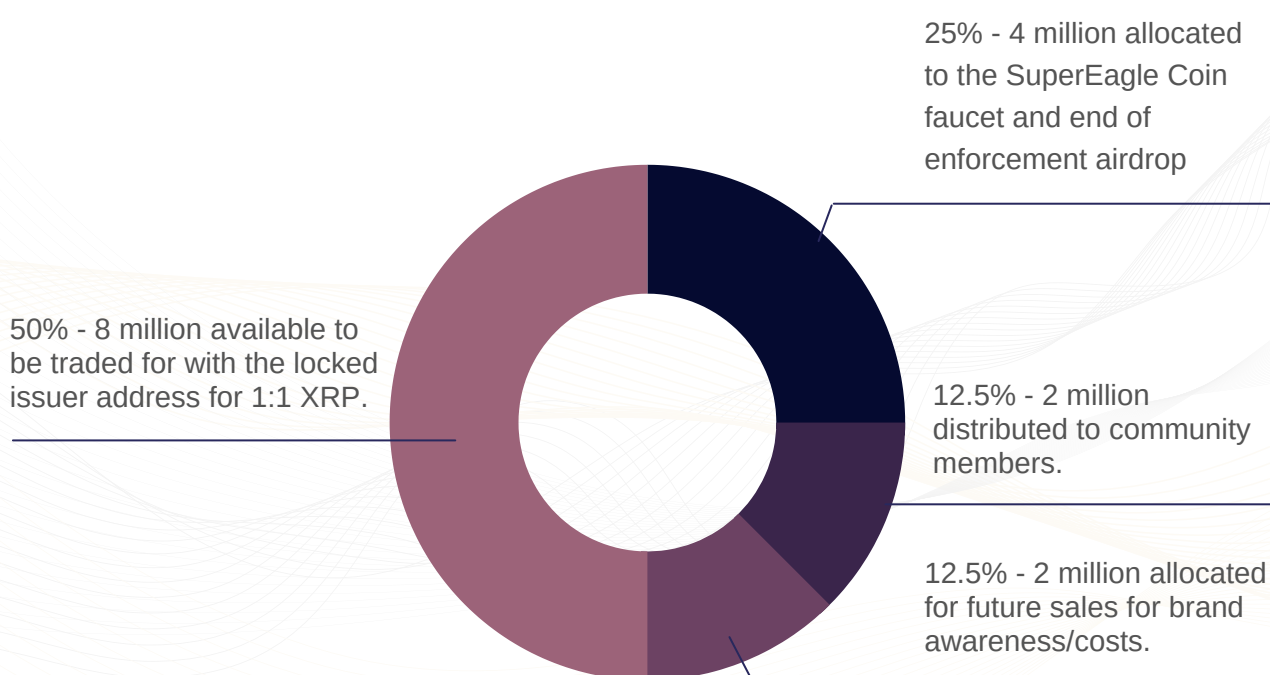

## Token Details

- Issuer address: rDN4Ux1WFJJSPCdqdfZgrDZ2icxdAmg2w
- Currency code: SEAC
  - The XRP on-ledger code: SEC
- Amount issued: 8 million
- Date issued: 20/5/2021
- Offers: 8 million further SuperEagle Coins are available to be traded for with the locked issuer address for 1:1 XRP

## Tokenomics

- 25% - 4 million allocated to the SuperEagle Coin faucet. To be airdropped equally to all holders at the conclusion of current enforcement actions against Ripple Labs.
- 12.5% - 2 million distributed to community members.
- 12.5% - 2 million allocated for future sales for brand awareness/costs and CEX listings
- 50% - 8 million available to be traded for with the locked issuer address for 1:1 XRP.

# The backbone of SuperEagle Coin: XRPL

SuperEagle Coin is built on the XRPL. The XRP Ledger (XRPL) is a decentralized, public blockchain led by a global developer community. It's fast, energy-efficient, and reliable.

There are multiple reasons to chose XRPL blockchain for the SuperEagle project. Some of the key benefits of the XRPL are;

- Public and Decentralized Structure
- High Performance
- Proven Reliability
- Low-Cost transaction

The XRPL utilizes a high-performance decentralized peer-to-peer multi-currency exchange built directly into the blockchain and atomically settles multi-hop payments that cross-currency or national boundaries with ease. It allows developers with a strong open-source foundation for executing the most demanding projects.

Over 8 years of consistent performance and more than 63 million ledgers, XRPL has proven its reliability and is perfect for the SuperEagle Coin project.

# NFT – SECWarriorClub

SuperEagle Coin is pioneering the development of XRPL NFTS. We officially support the XLS-14d protocol.

We commit to transitioning any XLS-14d XRPL NFTs over to other formats as they are developed and there is consensus.

Any files hosted at the subdomain (.secwarrior.club) can be tokenized on the XRPL. Owning the SECWarriorClub NFT will allow users to purchase official SuperEagle Coin NFTs at a discounted price.

A planned SuperEagle Coin-powered NFT marketplace will allow users to stake, vote, and buy XRPL NFTs directly with SuperEagle Coin.

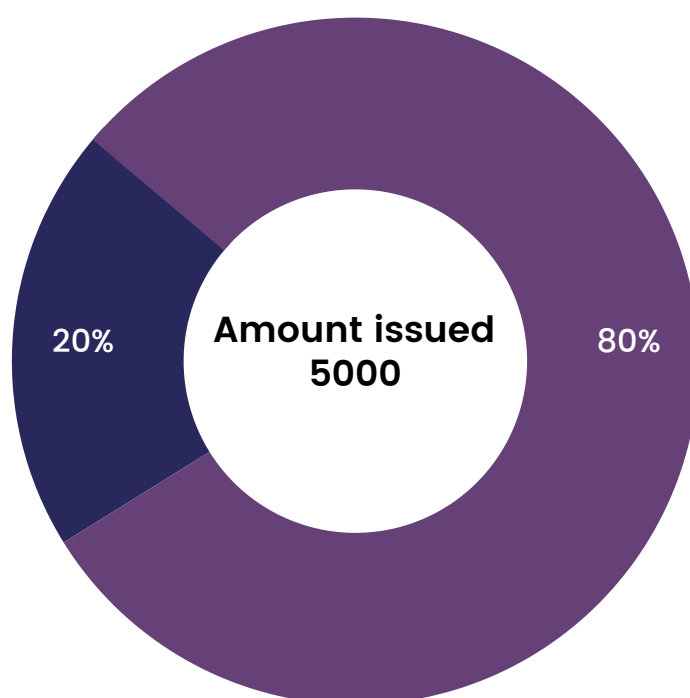

# SECWarriorClub Tokenomics

- Issuer Address: rMcsecFBij1eHghUDNDB2Lia4txhy7HTH
- Currency: SECWarriorClub
- Date issued: 9/21/2021
- File Domain: secwarrior.club
- Blackholed: Yes

## Token Distribution

- 20% - Total remaining: 1000
- 80% - Amount burnt: 4000

# Business Plan

SuperEagle Coin is in a prime position to lead an international movement to demand progress in digital asset policy worldwide. The plan is to support and develop XLS-14d NFTs until another protocol is agreed on for the XPRL.

Up to 2 million SuperEagle coins will be traded to potential buyers in accordance with Georgian law. It will help cover recurring costs such as website hosting, developer fees, and exchange listing fees.

SEC Coin LLC.

Country Georgia

Business Identification Number 406339788

# Roadmap

End of current enforcement action against Ripple Labs

- Airdrop the remaining tokens from the faucet fund to all holders

## Q2 2021

- SuperEagle Coin issued
- Website
- Custom Coin faucet

## Q3 2021

- Incorporated business
- Logo and name added to XUMM wallet
- Added to Twitter tip bot
- First XRPL NFT (XLS-14d) issued

## Q4 2021

- Whitepaper
- XRPL NFT marketplace
- CEX Applications

## 2022

- Protest focused NFTs
- NFT xApp
- Development for native XRPL NFTs
- CEX listings
- Run a XRPL validator
